About this catalog

Design work will be done through K2 Designs Ltd, a Dracon Group company (incorporation in progress). This catalog shows planned small goods: everyday items to be cut flat from one sheet and laser-engraved, with at most straight brake bends. A leather & leatherette line is planned, made to order.

HOW IT WILL WORK (FROM Q3 2027)

- Pick an item, then add names, initials, dates or a short message.
- Choose a finish: brushed stainless, black powder coat, rust patina or seasoned steel (cookware).
- A to-scale proof will be sent; nothing will be cut until it is approved.

DESIGN RULES

- Original art and public-domain motifs only: maple leaf, anchor, compass rose, lighthouse, puffin, moose, initials.
- No licensed logos, characters, song lyrics or other makers' designs.
- Customer artwork only where the customer owns it or has the right to use it.

FOOD-CONTACT NOTES

- Camp tools will be 304 stainless with deburred, polished edges; no paint on food surfaces.
- Engraving stays on handles, away from food surfaces.

All images are AI concept images or product mockups, not photos of finished items. Each item will be test-cut before it is offered.
